

GOOD NEWS
BROADCASTING NETWORK

Are you looking for a major evangelistic project to invest in with an organization that has demonstrated a good track record and high impact results?

Please consider supporting our Phoenix FM Radio Station Project.

OBJECTIVE

To launch Arizona's largest Christian FM radio station in Phoenix, reaching over 4.9 million people 24/7 with Christ-centered, end-time teaching and talk programming. By capturing listeners during their daily commutes across the metro area and extending our signal along hours of major highways to distant communities statewide, this station will share the Good News, foster deep relationships with Jesus, and prepare hearts for His soon return.

MIRACULOUS PURCHASE PRICE

The Holy Spirit is working in this deal! With the station valued at \$7,500,000, we are excited to be in contract to purchase this station for only \$1,500,000, one-fifth of its market value. The station owner is excited to make this station available to help us "share the Word of God" in an effective way over the airwaves. This is an absolute miracle of God.

Valued at \$7,500,000, we are purchasing this station for only \$1,500,000!

TOTAL PROJECT COST

Following the successful purchase of the station, the final portion of our \$2,130,000 total project budget covers several critical objectives. These vital next steps include upgrading to a new transmitter for peak efficiency and important new features, hiring part-time operational staff, and optimizing our programming to best serve and connect with our expanded statewide radio audience.

COVERAGE

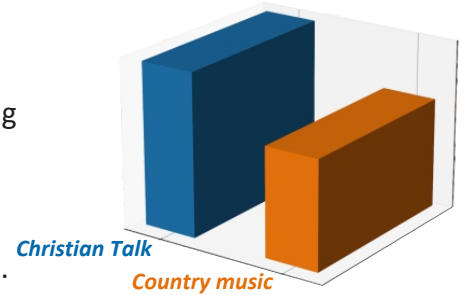

This station covers the entire Phoenix-metro area with a great signal, plus surrounding communities up to 120 miles away, as well as hours of highway commuting time in each direction through much of Arizona. Since the station covers about half of the land space of Arizona, hours of major highway commuting miles, and 2/3 of the population, it could be characterized as an ARIZONA STATION rather than a Phoenix station.

OVER =>

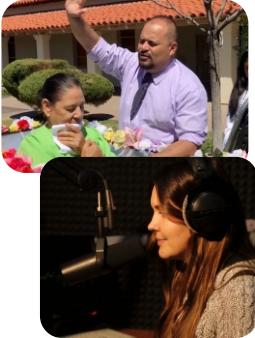

STATISTICS

According to Nielsen Ratings, this radio station currently has a listenership of over 459,000 every week. Additionally, Christian programming has now surpassed Country Music as the 4th most popular genre of radio programming in America. Furthermore, mass media is the most effective means of soul winning for those 18 years old and over, while radio, of all mass media, is the most trusted source and the most consumed daily throughout the US: 88% radio listeners; 86% television viewers; and 81% social media consumers.

listenership over 459,000

50% increase in baptisms

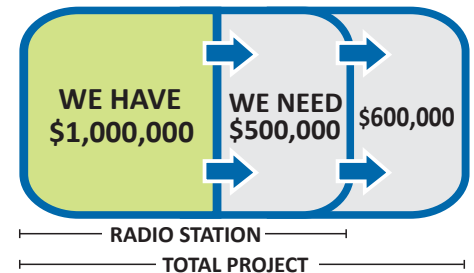

As a result of broadcasting on television throughout Arizona for 17 years (now also in 5 other states), a minimum of one third (33%) of the new-believer baptisms and Professions-of-Faith have been Good News TV viewers, with greater percentages in some communities. This translates into 50% - 100% more new-believers preparing for Jesus soon return. Since Good News TV viewers have constant access to our truth-filled, faith-building broadcasts, they are much more likely to mature into faithful contributing church members and leaders. This has been our experience for television, and we fully expect similar results for radio.

RESULTS

FUNDRAISING

Through God's faithful provision and your generosity, we have raised over **\$1,000,000**—two-thirds of the radio station's purchase price and almost half of our total goal. Please join us in prayer as we trust the Lord for the remaining **\$500,000** needed to close escrow on **November 2, 2026**. We also pray to fully fund our **\$2,130,000** total budget by early 2027, stepping completely into the vision He has set before us.

YOUR PARTNERSHIP

Please keep this project and our ministry in your prayers, and please prayerfully consider partnering with us through a special gift of any amount. This ministry is only possible with God's blessings and your support. We are committed to stewarding every dollar with care to impact lives for heaven.

FUTURE OBJECTIVES

While our immediate focus is launching this Phoenix FM station, responsible stewardship means looking ahead. Two rare FCC windows allow us to secure nine television permits and ten radio translators for cost effective, future growth. Please give today to help us anchor this station and build for the future.
